# GIVING BACK
## TO SOCIETY

IT IS OUR DUTY TO GIVE BACK TO SOCIETY
THROUGH OUR SHARED INTELLECT AND VALUES

The growth and development of people
is the highest calling of leadership.

# SUSTAINABLE DEVELOPMENT

## He who invests in the youth, invest in their own future.

What has started in 2014 as a "Graduate World Connect" service, linking university and college students in the employment world, has grown into a talent incubation environment, mentoring our youth on real, practical client service delivery environments.

Through the projects we support and the businesses we provide services to, GWConnect seeks to influence positive change in society because we believe business is a catalyst for social change.

# APPROACH

Business and
Talent Incubation
Services

Through our structures, processes and systems we have created our own in-house mentoring programme, combining extensive experience with individuals with capability and the quest for personal growth and development. This mentoring is not a scheduled intervention but an intentional daily on-the-job transfer of skills. Most of our staff have worked their way through these ranks and have grown in delivering our services.

## ENTERPRISE DEVELOPMENT

We focus on developing enterprises that's competitive and can integrate into large corporates to improve South Africa's economy and competitiveness. We help entrepreneurs to access and manage resources, processes and create value through our back-office support services and mentoring programme.

We also assist large corporates in design, implementation and operation of business incubators for enterprise and supplier development.

## INTERNSHIPS

Sustaining the development and growth of our youth through an ecosystem of support services, linking newly qualified graduates to the real world of employment.

## MEASURABLE IMPACT

Understanding the value of organisations' purpose and what they do so they can make better decisions and produce better outcomes for their customers, clients and communities. We help our clients understand and facilitate the integration of relationships between businesses, people and places, within the government policy and its environment.
